About the California Equity Leaders Network

The California Equity Leaders Network is a statewide collaborative effort of over 60 local, regional, state, and national groups dedicated to improving the lives of all Californians and promoting a future of shared prosperity. To this end we are committed to sharing knowledge, supporting one another, and collaborating on policies that advance equity in California. Network members have a shared interest in building a healthy and prosperous California by improving social, economic, public health and environmental outcomes for low-income people and communities of color across the State. We view policy change as one of several core strategies for accomplishing this and believe that collaboration is crucial to our success.
